# Vehicle History Report + Lien Check

## Lien Check

- ✓ No lien records found in **Alberta**.
- ✓ No lien records found in **Ontario**.

### How We Check for Liens

CARFAX Canada uses the VIN to search government records in each Canadian province and territory (excluding Northwest Territories) where the vehicle is currently registered and where it has historically been registered. We do not check for liens or title in any U.S. state.

If a VIN has no registration records in Canada, we cannot check for liens. We cannot guarantee lien checks on trailers, recreational vehicles or heavy-duty equipment.

Purchasers should always get written confirmation from vendors that there is no lien on the vehicle.

### CARFAX Canada Canadian Lien Guarantee

If for some reason our lien check fails to accurately reflect the Canadian enforceable lien status of a vehicle at the time of the search, CARFAX Canada will reimburse the party that purchased the report and relied on it to their detriment to a maximum amount of (1) the value of the car (2) the value of the lien (3) Five Thousand Dollars Canadian (\$5,000.00), whichever is lower.

## Open Recalls

Recall #: 2017030012 | Model 906. Model Years 2007-2017. Replace Drivers Side Airbag. Launched MY07-14: March 2

Recall Date: 2017 Mar 28

WDAPF4CC9G9702501

**Recall Description**

Certain Sprinter vehicles are equipped with driver side front airbags provided by the supplier TK Holdings Inc. ("Takata") and its successor Joyson Safety Systems ("JSS"). On January 2, 2019, JSS filed another Defect Information Report with NHTSA announcing a defect in the subject inflators. According to JSS/Takata, the propellant wafers in some of the subject inflators may degrade over time, which could lead to over-aggressive combustion in the event of an airbag activation. Overly aggressive combustion creates excessive internal pressure when the inflator is activated, which may cause the inflator body to rupture.

**Remedy**

Daimler Vans USA LLC will conduct a recall to replace the driver-side front airbag modules in the potentially affected Daimler Vans vehicles.

This recall was open as of the date/time that this report was generated. For more information, or to find out if the recall has been closed, please contact MERCEDES-BENZ or visit [Mercedes Benz's website](https://www.mercedes-benz.ca/en/recalls). (https://www.mercedes-benz.ca/en/recalls)

Recall #: 2021070007 | Recall Date: 2021 Aug 06

**Recall Description**

Mercedes-Benz AG ("MBAG"), the manufacturer of Mercedes-Benz and Freightliner vans, has determined that on certain 5-ton Sprinter vehicles from platform 906 (NCV3) that were upfitted into campers or recreational vehicles ("RVs"), one or more of the rear-wheel speed sensors may experience an electrical failure, which potentially lead to a disablement of the ESP control unit functions. Other performance issues might also be detected. If ESP control unit functions are disabled, vehicle driving stability may be impacted under certain driving conditions, increasing the risk of a crash. An authorized Mercedes-Benz or Freightliner Sprinter dealer will replace the rear-wheel speed sensors against a variant with higher robustness against moisture intrusion.

**Remedy**

An authorized Mercedes-Benz or Freightliner Sprinter dealer will replace the rear-wheel speed sensors against a variant with higher robustness against moisture intrusion.

This recall was open as of the date/time that this report was generated. For more information, or to find out if the recall has been closed, please contact MERCEDES-BENZ or visit [Mercedes Benz's website](https://www.mercedes-benz.ca/en/recalls). (https://www.mercedes-benz.ca/en/recalls)
